

AUTHENTIC AUSTRALIA ANIMAL RAP

C'mon grab your didgeridoo
It's time to hop around like a kangaroo
Hop to the left
Hop to the right
Shake your tail with all your might
(repeat)

The koala is the first friend we meet
His fur is soft and oh so sweet
He lounges up in the eucalyptus trees
Munching on all those leaves
He's like a teddy bear, cute and cuddly
So give yourself a hug that's super snuggly
(awwww)

Our next friend is a tiny little bird
But his voice is so loud, he wants to be heard
Sittin in the trees, it's the kookaburra
laugh loud like him KOOKAKOOKAKOOKAKA.
(everyone laugh loud)

C'mon grab your didgeridoo
It's time to hop around like a kangaroo
Hop to the left
Hop to the right
Shake your tail with all your might
(repeat)

The wombat's like a tiny little bear,
He's covered in a lot of hair
With his powerful claws and really sharp teeth
He burrows through the ground with super fast speed
(burrow like a wombat)

The sugar glider flies from tree to tree
Collecting all the nectar that he can see
He likes to sleep all through the day
But then he's up partying the night away
(fly around like the sugar glider)

Stick out your tongue like an echidna
He likes to eat ants, and I ain't kiddin ya
He has a long tongue that's super sticky
He's covered in spines that are super prickly
(lick up the ants like an echidna, ew)

C'mon grab your didgeridoo
It's time to hop around like a kangaroo
Hop to the left
Hop to the right
Shake your tail with all your might
(repeat)

We're now in the water, follow me
A little school of fishies swimmin in the sea
OH NO whats that, what do I see?
A great white shark, lookin at me!
Put your hands together and make a fin
We'll swim around the sea, just like him
(swim around little sharks)

The box-jellyfish swims around the sea
But don't let him touch you or me
He's very poisonous so keep away
You'll never find him in the Chesapeake bay
(wiggle your body around like a jellyfish)

C'mon grab your didgeridoo
It's time to hop around like a kangaroo
Hop to the left
Hop to the right
Shake your tail with all your might
(repeat)

Our adventure's finished, we've come to the end
We've learned a lot about our Australian friends
We're happy you're, here as you can see
Now jump up and down and shout YIPPEEE
